Carnebello EMH Dog Vital

Concentraten

Our EMH Dog Vital is a herbal ferment produced by the plant's own natural microorganisms. The following herbs are used in the natural fermentation process (fermentation refers to the microbial transformation of organic substances by bacteria and/or fungi):

Stinging nettle, echinacea, hibiscus, oregano, peppermint, stevia, fenugreek seeds, ribwort leaves, liquorice root, yarrow, wormwood herb, marshmallow root, thyme, rhubarb root, aniseed, fennel, raspberry leaves, cowslip root, aronia berry pomace, hawthorn root, rosemary leaves, sunflower blossoms.

Through the regular use of EMH Dog Vital, your dog's digestion can be sustainably promoted. This way, a better nutrient absorption of the food can be achieved. The metabolism and immune system can be strengthened and supported by this natural supplement, which can increase the dog's vitality and general well-being. The liquid herbal ferment can be fed as a cure or on a permanent basis and is particularly suitable for dogs prone to digestive problems, skin and coat problems or immune deficiency.

The benefits at a glance:

- Can strengthen, stabilise and support the intestinal flora
- Can increase food conversion
- Supports the immune system

Aanbevolen voeder:

Feeding recommendation:

Small dogs up to 10 kg 5 ml per day, large dogs 10 ml per day.

The herbal ferment can easily be mixed with the food or alternatively administered with the drinking water.

Samenstelling: 100 % gefermenteerd plantenextract (EMH)

Analytische componenten en gehaltes: 0,1 % Ruw eiwit, 0,1 % Ruwe as
